

BANC OHIO CORPORATION

51 NORTH HIGH STREET
COLUMBUS, OHIO

Annual Report 1952

January 28, 1953

To the Shareholders:

This is the 24th annual report of BancOhio Corporation. I am sure that you will be gratified to read of the progress your corporation has made in 1952. The financial statements contained herein have been examined by our auditors, Messrs. Price Waterhouse & Co.

The capital and surplus of BancOhio Corporation on December 31, 1952 totaled \$25,494,445.39 representing a book value of \$39.00 per share. The surplus account reflects the \$1,453,445.72 net increase within the year in the corporation's equitable ownership in the assets of affiliated banks, which represents their retained net earnings after dividend distributions.

The consolidated net income of the corporation and its affiliates for the year ending December 31, 1952, after all taxes, assessments, depreciation and reserve appropriations amounted to \$2,280,599.69 or \$3.49 per share on the capital stock of the corporation outstanding at the year end. Dividends aggregating \$1.10 per share were paid to shareholders in 1952.

The continuing growth of the banks affiliated with the corporation indicates to their managements the necessity of retaining a substantial part of their earnings as a means of supplementing capital funds. At the year end the combined resources of the 20 banks in the BancOhio group had reached a total in excess of one half billion dollars, \$512,886,566, an increase of \$44,628,209 from a year ago. At the last enumeration of account activity these banks were serving 352,311 customers, an increase of 20,206 from the 1951 year end totals. These figures do not include the 20,264 Christmas Club accounts that were on the banks' books.

Of course with the growth in the banks' resources, there has been an increase in their loan and bond accounts. As of December 31, 1952, total loans had reached \$127,306,291 and the bond accounts of the component banks, including Federal Reserve Bank stock, totaled \$265,413,941 and included \$206,528,082 in United States Treasury issues with an average maturity of two years and five months and an average first call maturity of one year and seven months. The account also includes \$55,088,041 of state and municipal bonds with an average maturity of four years and five months, and \$3,249,418 of other bonds composed of some Federal agency issues, Canadian Provincial and municipal bonds and several blocks of high grade railroad equipment obligations.

Some noteworthy events concerning several of the banks are recorded for shareholders' interest:

Toward the end of 1952 the Ohio National Bank was awarded the trusteeship of the \$326,000,000 Ohio Turnpike bond issue and for its servicing considerably enlarged the quarters of the Trust Department.

Our bank in Coshocton purchased the real estate mortgages of the Citizens Savings & Loan Company of that city, thereby adding over \$500,000 to its assets.

A new branch office building is being erected in the eastern section of the City of Springfield and upon its completion our bank in that city will be the second bank in our group to engage in branch banking.

The selection of a site in Pike County on which to build a billion dollar atomic energy plant has already considerably augmented the volume of business in our banks at Portsmouth and Chillicothe, which should continue to expand as the construction of the plant progresses.

At several places construction and remodeling had either started or been completed during the year, necessitated by expanding volume and should materially contribute to the convenience of customers.

We are all delighted at the growth in our bank at Whitehall, a suburb of Columbus. Commencing business on December 10, 1950, the bank's resources already exceed \$3,500,000.

Our Retirement Plan inaugurated two years ago was, at the year end, compensating twelve of our retired people. The cost to date has been \$13,202.73. The estimated cost for 1953 payments is \$8,679.

The tremendous industrial growth in many of our cities has contributed to a somewhat more than normal personnel turnover but this notwithstanding, and in spite of many perplexities, the 1250 people in our employ at the year's end have done a very commendable job. To all the directors and collective staffs we express our gratitude and appreciation.

In 1953 and in the years to come we shall continue the sound banking policies which have always guided our operations. Strong banks and a vigorous and growing economy are inseparable. We are proud of the part our banks are taking in the development of their communities.

Respectfully submitted,

James R. Coppins

James R. Coppins, President

PRICE WATERHOUSE & CO.

Union Commerce Building
Cleveland 14, Ohio
January 19, 1953

To the Board of Directors of
BancOhio Corporation

We have examined the 1952 financial statements of BancOhio Corporation (parent company only). Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances; but, we did not examine the financial statements of the subsidiary banks. However, we reviewed the copies of the state and national bank examiners' 1952 reports presented to us; the reports indicated that all subsidiary banks were examined during 1952 by such examiners.

The investments in subsidiary banks are stated on the basis of the parent company's equity in the net assets of the banks as shown by their December 31, 1952 financial statements; the net increase in the investment account, resulting from such basis, is included in surplus. The financial statements of the banks were certified by responsible bank officials to be copies of the statements filed with either the Comptroller of the Currency or The Division of Banks of the State of Ohio.

Based on our examination described above, and with the explanation in the preceding paragraph as to the basis for stating the investments in the subsidiary banks, it is our opinion that the accompanying balance sheet and statements of income and surplus of the parent company—BancOhio Corporation—present fairly its position at December 31, 1952 and the results of its operations for 1952, in conformity with generally accepted accounting principles, applied on a basis consistent with that of the preceding year.

PRICE WATERHOUSE & CO.

BANCOHIO CORPORATION

(Parent Company Only)

STATEMENT OF INCOME

YEAR ENDED DECEMBER 31, 1952

Income:

Dividends from subsidiary banks.....	\$ 881,727.80

LIABILITIES, CAPITAL AND SURPLUS

Federal income taxes—estimated.....	\$ 65,000.00
Capital stock—\$20 par value:	
Authorized—850,000 shares	
Issued—653,616.049 shares (less 2.94 shares in treasury at cost).....	13,072,254.97
Surplus (see note below), per statement attached	12,422,190.42
	<u>\$25,559,445.39</u>

Note:—

For the purpose of administering Section 5144, United States Revised Statutes, the Federal Reserve Board has accepted December 31, 1934, as a starting point for the determination of BancOhio Corporation earned surplus, as though there had been a quasi reorganization at that date. On that basis the total surplus account at December 31, 1952 would be segregated as follows:

Capital surplus (net).....	\$ 1,068,780.75
Surplus from increase in equity in net assets of the subsidiary banks—since December 31, 1934.....	9,674,821.08
Earned surplus—since December 31, 1934.....	1,678,588.59
	<u>\$12,422,190.42</u>
